

Resources for Evangelical & Reformed Theological Training and Education

Compiled by the Theological Education Commission (TEC) of the World Reformed Fellowship (WRF).

We cannot verify everything that is contained within each listing but we have endeavoured to note and list where we have found chiefly evangelical & Reformed materials and/or personnel.

This listing is of resources primarily in English. We are also happy to receive information about other language resources. Again, please email the Convener if you have resources to suggest to be included in other languages.

We welcome additional resources and we will continue to update this listing. Please email the convener of the WRF Theological Education Commission if you have additions or corrections:
